EXPERIENCE

Front-End Web Developer

TreeForge, LLC

📅 Mar 2019 – Present

📍 Albuquerque, NM

- Designed and developed advertising and e-commerce sites for clients.
- Built an e-commerce site that saved the client over 300 hours in labor and increased revenue by 20% in the first year.
- Linked sites to DatoCMS content management services to permit the clients to update site content and layout at their leisure.
- Managed contract workers in the creation of media assets and web designs.

Java+Android Bootcamp Student

CNM Ingenuity Deep Dive Coding

📅 Sep 2020 – Dec 2020

📍 Albuquerque, NM

- Attended Cohort 11 remotely for 40 hours each week and gained experience in working independently and as part of a team in a remote environment.
- Designed and built several Android apps and Java programs utilizing Spring, Hibernate, JavaFx, JUnit5, and SQL.
- Acted as project leader for AlbuQuirky, one of four final capstone projects.

A.P. Cashier w/ Software Responsibilities

Century Automotive Service Corporation

📅 Apr 2018 – July 2020

📍 Albuquerque, NM

- Designed, built, tested, and implemented custom software solutions to improve workflow and increase efficiency across multiple departments.
- Created processes that increased productivity by as much as 93%.
- Managed relationships and processes for VIP accounts that were of high value to the company.
